

CAC Compensation Plan

Forex Mandamus Services Inc.

Effective September 1, 2016

What we offer to clients?

- With our investment service the clients Forex trading account is linked to one of our company's Forex account. Each time our account executes a trade, the client's account will automatically execute the same trade with the recommended trade size on your account. The investor still remains in full control of their account but all trading in the investor account is done automatically without investor intervention or having to be on the computer or the trading platform open.
- When a trade is executed in the company's account we exchange one country currency against another country currency our clients profit from the different in exchange price over a period of time. Every Pair is Quoted in pairs because in effect we are simultaneously buying one currency while selling another. The good thing about this market is that clients make profit if the exchange rate is going up or down in value. Example: Let's say client#1 has \$5,000 in the forex account and in our company's account we take a trade in the EURO (Base Currency)/U.S. Dollar (Quote currency) (EUR/USD) and the value of 1 Euro in dollars is \$1.1186, we believe the Dollar will strengthen against the EURO so we take a Sell (also known as going short) and our client trade size is a 1 Standard lot, the price falls to \$1.1002 and 6 hours later we close the trade our client has made a profit of \$1,830.00 USD.

Harness the power of residual income!

The Compensation Plan has been designed to help you build a successful business of your own. FXMS Client and Affiliated Contractor(CAC) can earn money in two ways:

- Monthly residual income based on their acquired customers usage of FXMS's services.
- Bonuses based on customer acquisition.

Levels and Qualifications:

Every CAC starts as a **start-up Independent Business Owner (IBO)**. To become a qualified CAC you must have a minimum of 5 clients.

EARNED LEVELS:

CAC Bronze Level

You acquire
50 Clients/cac

CAC Silver Level

You acquire
100 Clients/cac

CAC Gold Level

You acquire
250 Clients/cac

CAC RVP Diamond Level

You acquire
500 Clients/cac

Residual Income

- As you acquire your own customers, you qualify to earn between 10% and 13% plus bonuses of their monthly bills. This percentage is based on your total number of customers acquired. The following Example for illustrative purposes shows the calculation based on a \$1,000USD daily trading profit on clients account.

Amount of customers	Percentage	Monthly Residual Income	Yearly Residual Income
1 to 5	5%	\$1,000 to \$5,000	\$12k to \$60K
6-99	10%	\$12,000 to \$198,000	\$144K to \$2,376,000
100-249	11%	\$220,000 to \$547,800	\$2,640,000 to \$6,573,600
250-499	12%	\$600,000 to \$1,197,600	\$7,200,000 to \$14,371,200
500+	13%	\$1,300,000+	\$15,600,000+

Bonuses

- As you acquire your own customers, you qualify to earn bonuses of 1% to 5% for clients acquired in one month this bonuses are extra percentage on your residual income on each clients/cac acquired.
